GREENROAD

New Update · Version 6.8.0

GreenRoad Central™ and GreenRoad DRIVE™
### Version 6.8.0 Release Notes

We are pleased to announce some exciting new features that we've added to GreenRoad Central™ and the GreenRoad DRIVE™ app:

- **Enhanced privacy options:** drivers can now use the GreenRoad DRIVE™ app without setting GPS (Location Services) to "Always" – as long as they are willing to start their trips manually.

- **GreenRoad DRIVE™ Live map enhancements:** we have made it even easier to search for and zoom into individual drivers on the GreenRoad DRIVE™ Live Map.

- **New language support for GreenRoad DRIVE™:** we have added Vietnamese, Indonesian, and Hindi to the long list of languages that GreenRoad DRIVE™ supports
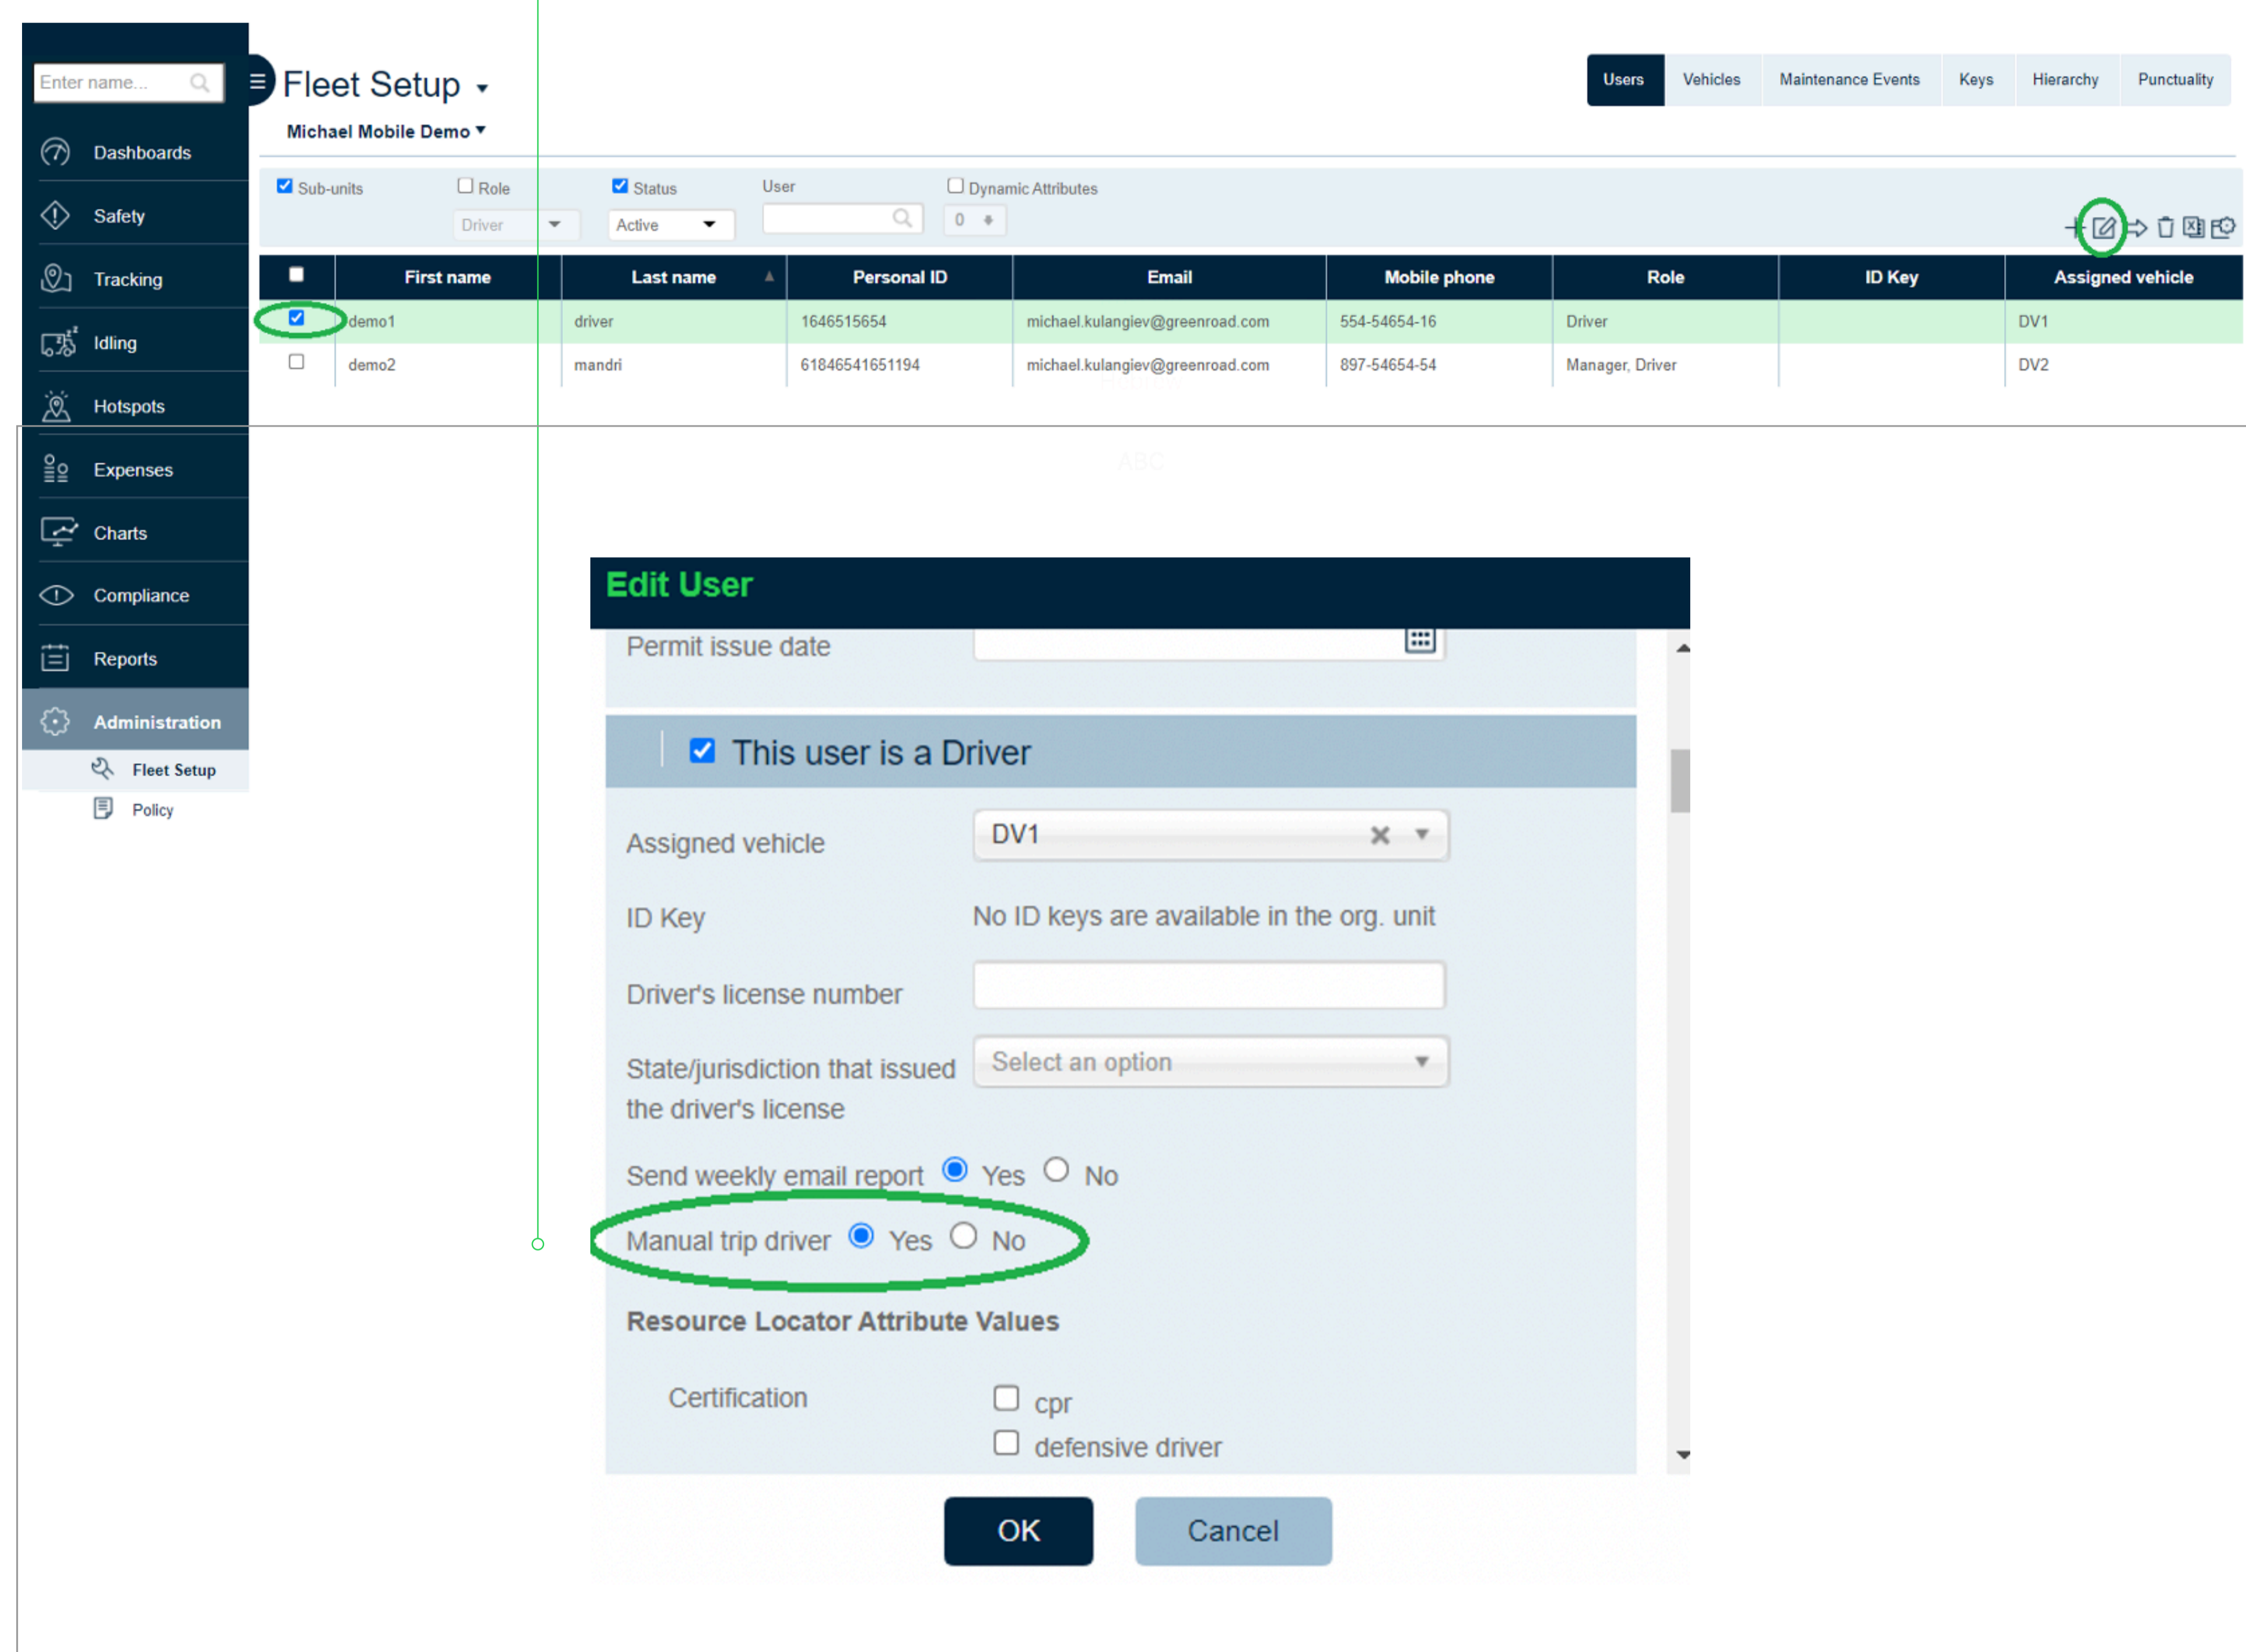

Below is a more detailed explanation.

Enhanced privacy options for the GreenRoad DRIVE™ app:

drivers can now use the GreenRoad DRIVE™ app without setting GPS (Location Services) to "Always" – as long as they are willing to start their trips manually.

To enable this option for specific drivers, in Greenroad Central go to Administration, click on Create new user, then identify the Driver as "Manual trip drivers" by clicking "Yes" next to "Manual trip driver."

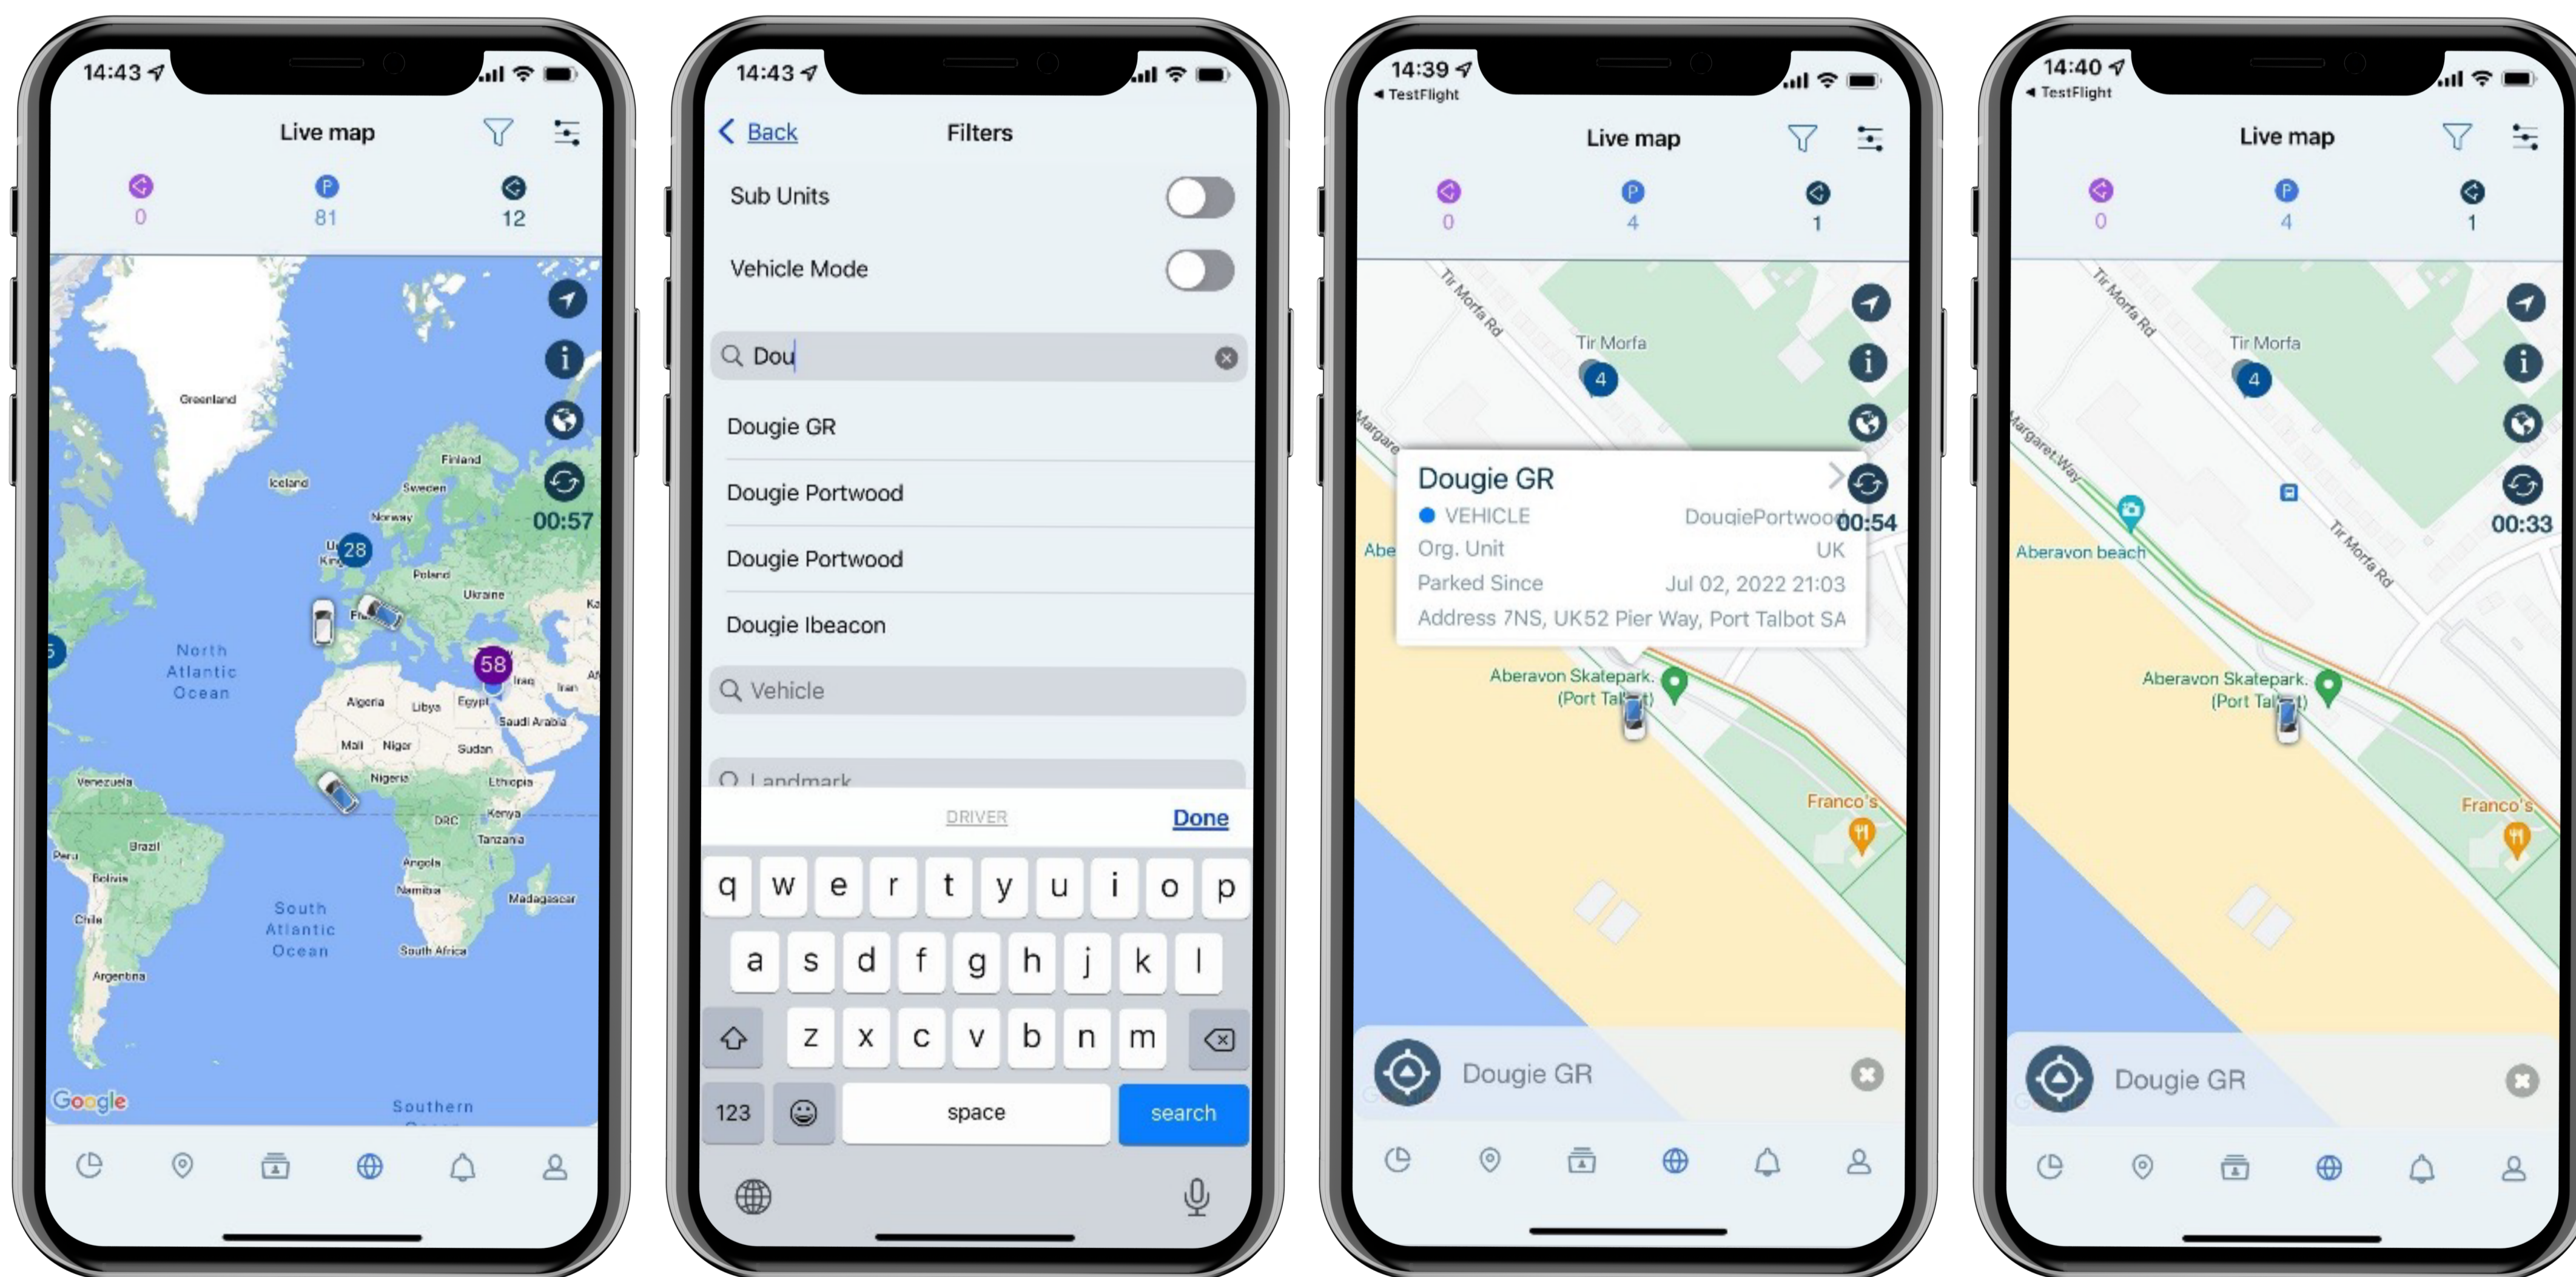

From that moment forward, they can change the GreenRoad DRIVE™ GPS Location Services permissions from "Always" to "While Using the App".

Please note: once drivers are defined as "Manual trip drivers", automatic trip starts are disabled for those drivers, and they must start their trips manually.

GreenRoad DRIVE™ Live Map Enhancements:
Now it is easier than ever to search for and zoom in on specific drivers on the Live Map. To locate a specific driver, click on the search icon 🔍 and enter his/her name. The screen will zoom in on the driver's location

To cancel your focus on this driver, click on the ⊙ button.

Until you cancel the search, no matter where you move on the map, a tap on the ⊙ button will return you to that driver's location.

New Language Support for GreenRoad DRIVE™
We have added Vietnamese, Indonesian, and Hindi to the long list of languages that GreenRoad DRIVE™ supports.

We'd love to hear your feedback about these or any GreenRoad features. Here's to safe journeys!
